“I can think of nothing more agreeable to the brain and the ear than a speech adorned and embellished with wise thoughts and fine language.” – Cicero, De Oratore, 1.8

Welcome! This course serves as an introduction to the fundamental principles of effective oral communication in several genres or forms. Topics may include voice, diction, projection, gestures, body language—in other words, what makes oral communication work for an audience. This class will go further than that, as we have time, to discuss and practice speaking with visuals, argument, oral interpretation, impromptu speaking, negotiation, and discussion. Attention will be given to the ethics of communication and the analysis of both effective and poor communication.

Learning Outcomes:
• Communicate to Learn. Students use communication as a form of inquiry, invention, and reflection.
• Communicate Flexibly. Students communicate effectively for specified audiences in more than one genre, medium, or mode, such as written, oral, or visual modes.
• Communicate with Skill and Confidence. Students develop an increased feeling of ease in speaking to a public audience along with increased skills and confidence gained from experience.
• Communicate Ethically for Purpose. Students foster in themselves the classical value of the “good” person speaking “well” in college and in post undergraduate endeavors.

You’ll have as many opportunities as possible to practice in a safe environment with lots of support and feedback. We will try to make learning and practicing fun and communal. Hopefully, when you leave the course, you will feel a bit more confident about your public self and ready to tackle the world! Don’t worry if speaking in public makes you nervous. Believe me, you are not alone, and we can get you past some of that, I’m sure.

This course is an exploration into a rhetorical practice that is as old as humankind. Everything you do here at Emory helps prepare you in one way or another for your life after college—on the job, in civic life, and in your community engagement. Your ability to communicate the wealth of insights you add to your personal and professional “portfolio” is the key to success in achieving your goals. Beyond this, being able to communicate well is deeply satisfying and serves the world around you.

What you will do in this course to achieve the learning outcomes:
1. Compose and perform several genres of speech acts with understanding and some degree of technical
proficiency.
2. Reflect upon and practice maintaining an ethical nature as a rhetor while learning to recognize unethical performances.
3. Apply rhetorical knowledge and understanding to situations and opportunities both within and outside the classroom.
4. Analyze and explain both negative and positive features of the speech acts of others.
5. Reflect about composition, performance, and the learning process in strategic ways—the ability to apply what is learned in one rhetorical situation to quite different situations.

Chapters used in the course will also be found in the appropriate modules when the reading is required. This text is free for anyone to use though Dr. Schrieber recently passed away. This means not all features are activated, nor will they be updated.

Other readings will be provided as the course progresses.

What I expect from you:
1—Readings—you will be expected to come to class with all assigned readings completed on schedule. Bring them for the day in print or have your laptop available to call them up if needed.
2—Attendance—the success of our class depends on all of us being prepared and in attendance. I have observed that even the best student's performance suffers with poor attendance. I appreciate an email informing me of upcoming absences. Excessive absences may hurt your final grade. Beginning with Week Two, you are allowed 4 absences without penalty. Missing 5 or 6 classes can result in a grade penalty of 5 points on your final grade average. Missing more than 6 classes can result in your being required to consult with your teacher and work out a contract to avoid failing the course. See note below about how absences impact final grade rounding.
3—Participation—vital to our class working as it should. Your written responses, willingness to speak up in class, attitude, and attendance in class are an important part of your contribution to the class. And your performances in class are a critical part of the learning. Learn to be an active rhetor! But remember to give space to others' voices as well. No phones are allowed out on your desk unless we plan for their use. Keep them stowed. Use of technology for any reasons other than the learning of our class is prohibited. Talk to your teacher early if this presents problems for you.
4—Do all assignments—give your best as your time and energy allow but do complete all assignments. I never expect perfection. However, I do expect effort and learning!
5—Be a believer! When you come to class and when you approach your assignments, try to find the good in the class for you; work to make the material of the course right for you. Negativism results in failure to learn and damages the class as a whole. If we are reading something or doing an activity that doesn’t appeal to you (happens to us all), try to draw what you can from it, and hang on—other materials and activities will be coming that might fit you better!

Major and Minor Assignments—in brief (please wait until assigned before beginning working on these—the course is designed to facilitate development of these projects as we progress. With each project, you’ll find your ability to speak well increasing, as well as your ability to offer sound and constructive feedback to your peers.)

Communication Exercises: These are small daily writings and other types of exercises to help you prepare for class and often serve as the focus of our class discussions and work together. If written, please type them as you do anything you hand in unless otherwise specified on the syllabus or in the assignment. They are due on the day listed on the syllabus at our class time unless otherwise stated. Late homework will receive ½ credit only unless you strike a bargain with your teacher in advance. We will do about a
dozen of these during the semester of varying length. I prefer assignments to be handed in on paper during class unless you can’t avoid it.

**This I Believe Essay and Recording:** Based on the famous *This I Believe* NPR broadcasts, you will construct a speech based on a primary value you hold, record and edit that speech using Audible, and post it on a website. You will also post the revised speech and select a photo to accompany the web posting and music to introduce and end your speech. 500 words.

**Storytelling or Narrative Speech:** This speech will be given from notes and will engage your audience with a story while using one visual aid. 4-5 minutes, given in class.

**Secret Life of a Word Speech:** This speech will draw on your personal values and research into the history and meaning of a word. No visuals. 4-5 minutes, given in class.

**Great Orators Project:** a collaborative speaking project which will be presented in class with professional presentational style which will explore a person or topic from several angles and focus on good and effective speech acts. This will include a full proposal, use of professional visual aids, and formal presentation.

**Reflection Paper:** A final paper which will document your learning this semester and respond to the learning outcomes. This should run 2-3 pages or so. Due during finals week.

**How Grades are Calculated:**
1. **This I Believe Project:** ………………………………………………………. 20%
   (Essay; Recording + Web Posting)
2. Storytelling or Narrative speech…………………………………….10%
3. Secret Life of a Word Speech……………………………………….10%
4. Final Great Orators project …………………………………………25%
   (Individual Speech + Visual; Group proposal; Group panel presentation)
5. Reflection paper about the course (2-3 pages)…………………………10%
6. Communication Exercises (a dozen or so of them)………………….25%

*(These percentiles are subject to change if we reach consensus on the change.)*

**Explanation of Letter Grades:**

**F:** Treatment of the subject is superficial. Ideas, organization, and style are well below acceptable college thinking and composition.

Please note that whether or not a borderline grade is rounded up is entirely at the teacher’s discretion. Such decisions shall be made based upon the teacher’s judgment about the student’s efforts, attendance, class citizenship, and participation.
D: Treatment and development of subject is only in the beginning stages. Organization is present but is neither clear nor effective. Little or no evidence of careful thinking.

C: Meets the assignment, reasonably well-organized and developed, and shows some grasp of audience. However, reader/listener does not feel instructed. Work is often too vague and general—general in that the confused reader/listener asks, "In every case?" "Why?" "Exactly how many?" The opening and/or conclusion might be uninteresting to the reader/listener. Arguments often contain tedious repetitions. Style can often be in need of attention.

B: Work is more than merely competent. Idea stated clearly but with little original thought. Reader/listener feels instructed. Organizing principle stated clearly, and all points are unified around central idea. Opening draws reader/listener in, and closing relates thematically to major points. Reading/listening is a pleasure.

A: Shows unusual polish and style. The subject is very well developed with original and fresh ideas and depth of thought. Reader/listener feels delighted or instructed at every stage. The reader/listener feels—for the entire length of the reading journey—that the writer/speaker is a careful, trustworthy, craftsperson.

**Important:** Emory strives to create an inclusive learning environment. Please let me know if anything is preventing you from doing your best work in this class. This can include your own learning strengths, any classroom dynamics that you find uncomfortable, or other issues that impact your work. I will hold such conversations in strict confidence and adapt the class and assignments as I can. The Office of Accessibility Services (OAS) works with students who have disabilities to provide reasonable accommodations. In order to receive consideration for reasonable accommodations, you must contact OAS. It is the responsibility of the student to register with OAS. Please note that accommodations are not retroactive and that disability accommodations are not provided until an accommodation letter has been processed. Students registered with OAS who have a letter outlining their academic accommodations, are strongly encouraged to coordinate a meeting time with your professor to discuss a protocol to implement the accommodations as needed throughout the semester. This meeting should occur as early in the semester as possible. Contact the Office of Accessibility Services for more information at (404) 727-9877 or accessibility@emory.edu. Additional information is available at the OAS website at http://equityandinclusion.emory.edu/access/students/index.html.

**Academic Honesty:** ([http://catalog.college.emory.edu/academic/policies-regulations/honor-code.html](http://catalog.college.emory.edu/academic/policies-regulations/honor-code.html)). Policy obligates reporting all suspected cases of plagiarism to the College Honor Council. Plagiarism is unacceptable. Never submit another’s work as your own. If you include someone else’s work in your paper or speech, always give credit to the original author. If you are unsure about whether something constitutes dishonesty, please bring it to my attention before submitting the work. I won’t get mad or angry—I’ll listen and help. Don’t make a costly decision because of stress and timing. ALWAYS talk to me instead. That’s the safe way. Be aware that plagiarism and other forms of academic dishonesty can cause you to fail the course and be dismissed from the college. The university’s honor code policy will be enforced.

**Writing Center Tutoring:** The Emory Writing Center (EWC) is open year-round to support writers (students, staff, and faculty) in Emory College, the Laney Graduate School, the School of Nursing, and the Medical Imaging Program. We offer one-on-one remote and in-person tutoring for writers working on a range of composition projects (essays, applications, reports, theses, etc.), at any stage of the writing process (from brainstorming to final revisions). Writing Center tutors work on idea development, structure, use of sources, style, grammar, and more. We are not a proofreading or editing service, but rather offer strategies and resources writers can use as they compose, revise, and edit their own work. Tutors also support the literacy needs of English Language Learners (ELL); several tutors are trained ELL Specialists. The Writing Center is located in Callaway N111 and a maximum of two appointments are allowed each week. You can learn more about the Emory Writing Center and make an appointment on our website: [http://www.writingcenter.emory.edu](http://www.writingcenter.emory.edu). Our opening day each semester is set one week after the add/drop/swap deadline, to allow for our tutors to finalize their schedules. Please review our policies
before your first appointment, including our new policy on inclusivity and respect: [http://writingcenter.emory.edu/appointments/policies.html](http://writingcenter.emory.edu/appointments/policies.html).

**Stress Management and Mental Health:** As a student, you may find that personal and academic stressors in your life, including those related to remote study, COVID-19, economic instability, and/or racial injustice, are creating barriers to learning this semester. Many students face personal and environmental challenges that can interfere with their academic success and overall wellbeing. If you are struggling with this class, please contact me via email. If you are feeling overwhelmed and think you might benefit from additional support, please know that there are people who care and offices to support you at Emory. These services—including confidential resources—are provided by staff who are respectful of students’ diverse backgrounds. For an extensive list of well-being resources on campus, please go to: [http://campuslife.emory.edu/support/index.html](http://campuslife.emory.edu/support/index.html). And keep in mind that Emory offers free, 24/7 emotional, mental health, and medical support resources via: [https://timelycare.com/emory](https://timelycare.com/emory).
